### Ink Poisoning: Possibilities, Symptoms & Treatment

Squid distract attacking predators by ejecting a cloud of ink, giving themselves an opportunity to escape. The ink gland and its associated ink sac empties into the rectum close to the anus, allowing the squid to rapidly discharge black ink into the mantle cavity and surrounding water. The ink is a suspension of melanin particles and quickly disperses to form a dark cloud that obscures the ...

Despite being comparable in size to modern Giant Squid, it was still far from the top of the local food chain. When the Tusoteuthis performs its ink ability, it creates a smoke screen of ink and increases the Movement Speed of the Tuso by 30% for 8 seconds. Cool down on the ability is 7 seconds.

### Tusoteuthis - Official ARK: Survival Evolved Wiki

Artist Louis Gibiard created an incredibly detailed drawing using only a ballpoint pen. The combination of the blue ink against the white of the paper is reminiscent of traditional porcelain art from Asia but the images are more wildlife oriented. This amazing piece took Gibiard over 140 hours to complete.
