Josh has been creating great technology products for more than 20 years. A UX design leader, Josh has worked in hardware and software, consumer and enterprise, mobile, web, and desktop. He was head of product design at Wall Street innovator Liquidnet, and lead pioneering interaction design teams at Cooper.

Lean UX

Lean UX design extends the traditional UX role beyond merely executing design elements and anticipating how users might interact with a system. Instead, it encourages a far more comprehensive view of why a Feature exists, the functionality required to implement it, and the benefits it delivers. By getting immediate feedback to understand if the system will meet the real business objectives, Lean UX provides a closed-loop system for defining and measuring value.
