Organisation, interaction and practice: studies in ...

The rule (or even 'the organization' itself) is not something pre-existing or existing outside ongoing organizational interactions. It is, rather, a resource that people draw upon to legitimize their actions and further whatever projects they are pursuing in the work context. This perspective can be illustrated with a small case study.

Exhibit 1: Three definitions of a learning organization. Learning organizations [are] organizations where people continually expand their capacity to create the results they truly desire, where new and expansive patterns of thinking are nurtured, where collective aspiration is set free, and where people are continually learning to see the whole together.

The practice. 'Members of a community of practice are practitioners. They develop a shared repertoire of resources: experiences, stories, tools, ways of addressing recurring problems—in short a shared practice. This takes time and sustained interaction' (op. cit.). Relationships, identity and shared interests and repertoire

Organizational theory consists of many approaches to organizational analysis. Organizations are defined as social units of people that are structured and managed to meet a need, or to pursue collective goals. Theories of organizations include rational system perspective, division of labour, bureaucratic theory, and contingency theory. In a rational organization system, there are two ...

Studies in mathematics education show that practice is effective when teachers design appropriate practice problems, distribute them over time, and provide students with sufficient feedback. Practice is ineffective when it is not appropriately designed, not well distributed, and when adequate feedback is not provided.

Practice for knowledge acquisition (not drill and kill)

Organizational behavior studies the impact individuals, groups, and structures have on human behavior within organizations. It is an interdisciplinary field that includes sociology, psychology, communication, and management.
